## What's the Process of Choosing Kitchen Materials?

When you're designing a kitchen, you don't need to choose the materials in any specific order. However, we recommend starting with your kitchen cabinets because they will be the most dominant visual component. Once you've selected your cabinets, choose complementary countertops, flooring, and window treatments.

### Kitchen Cabinets

Our kitchen cabinets are custom-built for your space, and can be designed to complement any aesthetic you have in mind. **Our cabinets are:**

- ✓ Completely customizable
- ✓ Available in 16 different colors or custom-matched for an additional fee
- ✓ Manufactured by [Cutting Edge Custom Cabinets](#)
- ✓ Built with materials from [Emerson Hardwood](#) and [National Builders Hardware](#)
- ✓ Finished with in-house staining and lacquer

## Kitchen Countertops

The high-quality kitchen countertops from Floor Factors are made to order so that they fit your unique space and design style. **Our countertops are:**

- ✓ Completely customizable
- ✓ Available in myriad colors and designs
- ✓ Available in engineered marble, laminate, granite, quartz, acrylic, and solid-surface options
- ✓ Manufactured by the highest quality countertop suppliers

## Kitchen Flooring

We carry a wide range of kitchen flooring options. Pick and choose from our flooring materials to create the kitchen of your dreams. **Our kitchen flooring is:**

- ✓ Completely customizable
- ✓ Available in a variety of styles, from contemporary to traditional
- ✓ Available in hardwood, cork, laminate, luxury vinyl, linoleum, stone, tile, and more

## Kitchen Window Coverings

We offer kitchen window coverings in a wide variety of options that will work for both commercial and residential spaces. Our kitchen window treatments include blinds, shades, and other [window covering choices](#). **Our window covering options are:**

- ✓ Completely customizable
- ✓ Manufactured by [Hunter Douglas](#)
- ✓ Available in a variety of colors, materials, textures, and designs
- ✓ Available in sheer and semi-sheer materials
- ✓ Made from wood, vinyl, aluminum, cotton, linen or polyester
