

# Flooring Remnants FAQ

In addition to a wide variety of customizable [floor covering products](#), Floor Factors carries a large inventory of remnants. Find out more about this budget-friendly flooring solution and get answers to some of the most frequently asked questions.

## Are remnants new or have they been used?

Flooring remnants are pieces of new flooring material left over from our flooring installations. Since we work with only the top flooring manufacturers, our materials are of the highest quality. Our remnants are housed in our warehouse and kept in optimal condition. For example, our carpet remnants are rolled with the fibers on the inside because this is the best way to preserve it during storage.

## What kinds of materials are available?

Depending on our current stock, we might have these [remnant flooring materials](#) on hand:

- ✓ Carpet and carpet tiles
- ✓ Cork
- ✓ Hardwood
- ✓ Laminate
- ✓ Linoleum
- ✓ Luxury vinyl tile (LVT)
- ✓ Stone
- ✓ Tile
- ✓ Vinyl
- ✓ Vinyl composition tile (VCT)

Our selection changes, which means you've always got options! We invite you to get in touch to find out what's currently in stock. **Remnants are available to view 8am to 5pm, Monday through Friday.**

## What are the warranty terms?

In order to receive a warranty, flooring needs to be purchased directly from the manufacturer. Remnant flooring does not come with a warranty.

## Features & Use

### What are the benefits of remnants?

Using flooring remnants for your remodeling project is a great way to save money on materials. Not only are they a fraction of the cost of new floors, they're available immediately!

## Where can I install remnants?

Remnants are suitable for both residential and commercial use. Since remnants are left over from remodeling projects, there may not be enough matching material for an entire home or larger rooms.

**They're the perfect choice for smaller rooms, such as:**

- ✓ Bathrooms
- ✓ Bedrooms
- ✓ Closets
- ✓ Dining rooms
- ✓ Entryways
- ✓ Garages
- ✓ Guest houses

- ✓ Home gyms
- ✓ Kitchens
- ✓ Laundry rooms
- ✓ Offices
- ✓ Utility rooms
- ✓ And more!

Looking to create a custom area rug? Carpet remnants and tiles are an excellent choice and a great accent to any room. We can also fabricate any of our carpeting materials into custom area rugs to perfectly suit your design needs and vision!

## Care & Maintenance

### How do I properly clean and maintain remnant flooring?

In order to clean and maintain your remnant flooring, simply follow the maintenance best practices for the flooring type. Remnants are cleaned and maintained using the same methods. Check out our flooring care and maintenance pages to learn how to clean different types of flooring. **Cleaning supplies and materials are available for purchase in our showroom.**

### How Can I See the Flooring Remnants You Have in Stock?

Remnants often need to be retrieved by forklift or are located behind other materials. Due to these storing methods, accessing remnants requires additional preparation time for our team. Please speak with one of our team members so they can coordinate a viewing with you. **Remnants are available to view 8am to 5pm, Monday through Friday.**

When a customer requests a sample of remnant flooring, we provide them with a swatch. We are very careful not to cut off large swatches since that would comprise the size of the remnant.

We strive to offer a high level of customer service and understand shopping for remnants is not always the simplest process but is worth the discounted price we are able to extend to our customers.
